

Vincent Woods

A donation from the Vincent Family

Vincent Woods is located on Salmon Lake Road South, just before (south of) the split to Fire Route 350. The access road is a small, single-vehicle pathway with some parking at entrance. The first portion of the access trail is through crown land. You will then reach the corral-like structure to indicate you are approaching the Vincent Woods property.

As formal stewards of the property, SALACOA members, their families and friends can enjoy the natural character of this beautiful site. Take a leisurely nature appreciation walk, ride your mountain bike, cross-county ski or snow shoe.
